

Our Goal... *Our Purpose*

- 
- ◆ **We believe** cattle should be healthy - and beef healthy for you.
 - ◆ **We believe** food is a God given provision.
 - ◆ **We believe** our health and well-being is best served when beef is free range raised, grass fed, and totally produced without steroids, hormones, or growth implants.
 - ◆ **We believe** food, animals and the land should be managed using sustainable, humane practices that promote the long-term health of rural families, consumers, and communities in the USA.
 - ◆ **We believe** food should be produced as close to our homes as possible by people who love the soil, care for the land, and humanely handle cattle.
 - ◆ **We believe** the people who produce your food should earn a just income.
